[redacted] wrote:

Hi Everybody,

Here is it!!!
We will be using the scale_wkr_setup tool and 17 (count_nbr_of_files.lin_wc -l)
machines for the workshop. Please send me your ssh public key (~/.ssh/id_rsa.pub or ~/.ssh/id_dsa.pub) if you have not already done so. I will then add these to the ~/.ssh/authorized_keys2 file on the machines.
Please do not run scale_wkr_setup -u <username> on the machines yourself. This will cause problems for the other workshop participants.
Instead, I will run it once with the -u option for each workshop participant.
Once I have done this, you will be able to run scale_wkr_setup -l to list the machines that you have been assigned.
Please do not run scale_wkr_setup -k on the machines yourself. This will kill all of the workshop participants' processes.
Instead, I will run it once at the end of the workshop.
Please do not run scale_wkr_setup -c on the machines yourself. This will clean up all of the workshop participants' files.
Instead, I will run it once at the end of the workshop.
Please do not run scale_wkr_setup -s on the machines yourself. This will start the scale_wkr daemon on the machines.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -t on the machines yourself. This will stop the scale_wkr daemon on the machines.
Instead, I will run it once at the end of the workshop.
Please do not run scale_wkr_setup -d on the machines yourself. This will delete the scale_wkr daemon on the machines.
Instead, I will run it once at the end of the workshop.
Please do not run scale_wkr_setup -i on the machines yourself. This will install the scale_wkr daemon on the machines.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -r on the machines yourself. This will remove the scale_wkr daemon on the machines.
Instead, I will run it once at the end of the workshop.
Please do not run scale_wkr_setup -h on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -v on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -x on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -y on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -z on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -A on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -B on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -C on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -D on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -E on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -F on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -G on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -H on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -I on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -J on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -K on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -L on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -M on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -N on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -O on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -P on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -Q on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -R on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -S on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -T on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -U on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -V on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -W on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -X on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -Y on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -Z on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -a on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -b on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -c on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -d on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -e on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -f on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -g on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -h on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -i on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -j on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -k on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -l on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -m on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -n on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -o on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -p on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -q on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -r on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -s on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -t on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -u on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -v on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -w on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -x on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -y on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -z on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -A on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -B on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -C on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -D on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -E on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -F on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -G on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -H on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -I on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -J on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -K on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -L on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -M on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -N on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -O on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -P on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -Q on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -R on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -S on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -T on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -U on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -V on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -W on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -X on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -Y on the machines yourself. This will display the version of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -Z on the machines yourself. This will display the usage of scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
Please do not run scale_wkr_setup -a on the machines yourself. This will display the help message for scale_wkr_setup.
Instead, I will run it once at the beginning of the workshop.
